COSMETIC AND MEDICAL TATTOOING

SEMI PERMANENT MAKE UP (SPMU) (EST 2013)

The Treatments are relatively pain-free and recovery time is minimal with results lasting depending on Lifestyle and Skin Type 12-18 Month before a Top up is required. Ideal for people with an active lifestyle, allergies to make-up, Hay fever or watery eyes, Alopecia sufferers, thinning brows or for people that have no time to apply make-up. Consultation & Patch Test are mandatory. I offer this free of Charge.

After the Treatment you will receive Instructions on how to look after your Enhancement and if needed, i will also provide you with the appropriate Aftercare. And - i am always only a Phone call or Text away if there are any Questions or worries.

EYEBROWS LIPS, EYELINER

(Top ups, colour boost, new sets or removal) **£180 per session**

CORRECTION

£200 per session

AREOLA RECONSTRUCTION / RE-BALANCING Let me give you something of "yours" back - if preferred this can also be done with permanent Tattoo Ink which eliminates the need of having it touched up during the fading process. Medical tattooing is to detract the eye rather than attract it. Tattooing of Areolas can usually be carried out 3 month after surgery of either a Nipple reconstruction or Breast reduction. - **Priced**

SCAR RELAXATION /TREATMENT & FINE WRINKLE

TREATMENT (Dry Needling / MCA) MCA or multi tropanic collagen actuation also known as dry needling encourages the body's natural fluids and collagen back into the Area - flattening scars like from acne or surgery, stretch marks and fine lines on the Face by improving the visual appearance. It's considered a halfway House between cosmetic and medical tattooing without using any Ink. - **Priced**
